Payment Plans Available with no money down
0% INTEREST FOR 24 MONTHS*

*Financing provided through Chase Health Advance. Offer subject to credit approval. Minimum monthly payments are required during the promotional period. Under this promotion, no finance charges will be assessed on the promotional purchase as long as (1) you pay the promotional purchase amount in full within the promotional period e.g. 24 months, and (2) you pay, when due, the minimum monthly payment due on your account. If you fail to satisfy either of these conditions, all special promotional terms will be terminated and finance charges will be assessed on the promotional purchase amount from the date of the purchase. In such case, the APR will be between 19.99% and 27.99% depending on your credit tier at time of approval. Minimum finance charge is \$0.50. Unicorn Financial reserves the right to charge the applicable APR, fees and other terms.

Call (815) 284-1600

The Sterling Rock Falls Clinic is proud to announce that Dr. Marc A. Booth, M.D., the newest member of our Ophthalmology team, will be offering LASIK and other forms of refractive eye surgery in his office at 1321 North Galena Ave., Dixon, Illinois. Dr. Booth is Fellowship trained in LASIK and other forms of refractive surgery including PRK and astigmatism correction.

The new VISX Excimer Laser with its WaveScan technology, called CustomVue Laser Vision Correction, captures the unique imperfections in your vision that could not have been measured and corrected before. WaveScan technology produces a detailed map of your eye — much like a fingerprint, no two are alike. The CustomVue procedure enables Dr. Booth to measure imperfections in your vision and tailor a correction based on the unique characteristics of your eyes. This new level of measurement provides 25 times more precision than standard measurements used for glasses and contact lenses.

The VISX Excimer Laser with its state-of-the-art technology is Northern Illinois' most advanced refractive eye surgery unit.

If you or someone you know is interested in learning more about this remarkable procedure, you are encouraged to call **(815) 284-1600**.
